

SAPELO

Open, connected living with intentional flow.

With a wider footprint and a seamless flow from front to back, the Sapelo is designed to feel open, connected, and effortlessly livable. A welcoming covered porch leads into a spacious main living area that anchors the home, while an optional covered side porch adds architectural dimension and enhances curb appeal from multiple angles.

The kitchen is supported by a dedicated utility room and walk-in pantry, creating a layout that feels both functional and well organized. The primary suite is privately positioned along its own hallway and includes a walk-in closet along with a well-appointed bath featuring a separate tub and shower and space for a double vanity. Additional bedrooms offer flexibility for family or guests while maintaining the overall flow of the home, resulting in a design that feels both open and intentionally structured.
